Charging and powering your portable devices.

Design meets the latest generation technology

USB SOCKET OUTLETS

USB socket outlets: all-in-one, high performances and aesthetically coordinated.

Solutions that simplify daily life and meet with the latest generation technologies, Vimar offers **USB type C sockets**. Available for Eikon, Arké, Plana, Neve and Linea series, these sockets now are been combined **at the type A output in a high-performance all-in-one version with just 1 module**. An ideal solution for hotel, bed top, offices, training institutes and residential buildings.

ALL-IN-ONE SOCKETS.

In just one device, **A+C** USB outlets for **total power of 2,4 A** (power distributed on the 2 outputs) in **just 1 module** or **A+A** for **total power of 2,1 A** in 2 modules or with sockets for current for British standard installation.

A+C OR C+C SOCKETS.

2 types of outputs for **total power of 3 A** available also with sockets for current for British standard installation.

USB C fast charge **C output** enable the recharging at full speed **up to 3 A 5 V** on each output.

A OR C SOCKETS IN 1 MODULE.

One only **A** or **C** USB outlets for **total power of 1,5 A** in **just 1 module**;

MODULAR INSTALLATION

Thanks to the front-on mounting, the upgrade of the installation is fast because you just have to replace a device with another one without removing the mounting frame from the box.

AESTHETICAL COORDINATION.

Available for **Eikon, Arké, Plana, Idea, Neve** and **Linea** series, a special attention to the design.

FOR INTERNATIONAL PROJECTS

Our range of USB socket outlets are installable in all type of buildings (schools, offices, hotels, house, etc.) and are matchable with the main international standards.
